# Maanaz K Antony

9207873849 | maanazantony08@gmail.com | LinkedIn | GitHub | Kochi, Kerala, India

## Profile

B.Tech Computer Science graduate with hands-on experience in machine learning, deep learning, computer vision, NLP, and generative AI. Built end-to-end AI/ML projects including an agentic AI job finder, a face-authorized gesture recognition system, and a live match prediction pipeline. Currently training as Data Science Intern at Luminar Technolab. Curious to learn, strong problem-solving mindset, and ready to contribute to real-world AI solutions.

## Technical Skills

**Programming:** Python, SQL
**Machine Learning:** Scikit-learn, XGBoost, Random Forest, Naive Bayes, KNN, Linear & Polynomial Regression, Feature Engineering, Model Evaluation
**Deep Learning & CV:** TensorFlow, Keras, PyTorch, OpenCV, MediaPipe, YOLO, face_recognition, PyTesseract, MobileNetV2
**NLP & Generative AI:** NLTK, Ollama, LangChain, RAG, CrewAI, Agentic AI, HuggingFace
**Data & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Power BI,DAX
**Frameworks & Tools:** FastAPI, Flask, Streamlit, Git, GitHub, Google Colab, VS Code
**Databases:** PostgreSQL, MySQL, SQLite

## Projects

**Agentic AI Job Finder** | *CrewAI, Gemini, Python, Streamlit, Adzuna API* | GitHub **September 2026**
- Built an end-to-end agentic AI app with Resume Analyzer and Job Hunter agents using CrewAI and Gemini, fetching live jobs via Adzuna API.
- Implemented PDF resume extraction and AI-based skill matching for personalised job discovery via a Streamlit interface.

**World Cup 2026 Match Outcome Prediction Model** | *Scikit-learn, XGBoost, FastAPI* | GitHub **June 2026**
- End-to-end ML pipeline on 47,000+ matches — feature engineering with Elo ratings, team form, and historical data; ∼70% accuracy in group-stage predictions with correct quarter-final winners during live simulations.
- Deployed via FastAPI backend and interactive Streamlit app for real-time match outcome and goal prediction.

**Secure Face-Authorized Gesture Recognition System** | *TensorFlow, MobileNetV2, OpenCV* | GitHub **October 2026**
- Built a real-time system combining face authentication with transfer-learning-based gesture classification (MobileNetV2) for three gestures — access restricted to verified faces only.

## Experience

**Data Science Intern** **Feb 2026 – Present**
*Luminar Technolab* *Kochi, Kerala*
- Built and deployed ML, deep learning, and computer vision projects using TensorFlow, Keras, OpenCV, MediaPipe, and Scikit-learn.
- Developed generative AI applications using Ollama, HuggingFace, LangChain RAG pipelines, and CrewAI agentic workflows.
- Created data analysis pipelines and dashboards using Pandas, NumPy, Seaborn, and Power BI.

**Academic Advisor** **Mar 2026 – Jun 2026**
*TechByHeart* *Kochi, Kerala*
- Managed end-to-end student enrollment; developed consultative communication, objection handling, and client relationship skills.

**Python & ML Intern** **May 2023**
*Camino Infotech* *Kochi, Kerala*
- Hands-on exposure to Python, data structures, and introductory NLP (NLTK) in an industry setting.

## Education

**B.Tech – Computer Science and Engineering** **2020 – 2024**
*Albertian Institute of Science and Technology* *Ernakulam, Kerala*

## Certifications

Python for Data Science – Cognitive Class by IBM
Cloud Application Developer – NSDC Level 5
JobReady Program – Wadhwani Foundation
