

MAANAZ K ANTONY

AI / ML Engineer

Kochi, Kerala, India | 9207873849 | maanazantony08@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.Tech Computer Science graduate with hands-on experience in machine learning, computer vision, and NLP. Built end-to-end AI/ML projects including a face recognition attendance system, an ML-based match prediction pipeline, and an NLP chatbot. Currently deepening skills in deep learning and AI/ML. Strong problem-solving mindset, curious to learn, and ready to contribute to real-world AI solutions.

TECHNICAL SKILLS

Programming: Python, SQL

ML & AI: Scikit-learn, RandomForestClassifier, XGBoost, Naive Bayes, KNN, Linear & Polynomial Regression, NLP (NLTK), Feature Engineering, Data Preprocessing, Model Evaluation

Computer Vision & DL & Gen AI: OpenCV, MediaPipe, Tensorflow, Keras, face_recognition, PyTesseract, YOLO, Ollama, RAG, Agentic AI

Data Libraries: Pandas, NumPy, Matplotlib, Seaborn

Visualization & BI: Power BI

Databases: PostgreSQL, SQLite, MySQL

Tools & Platforms: Git, GitHub, Google Colab, VSCode

Soft Skills: Problem-Solving, Communication, Teamwork, Leadership

PROJECTS

Face Recognition Attendance Marker — August 2026 [Github](#)

Python · OpenCV · face_recognition · NumPy · CSV

- Developed a real-time face recognition attendance system using OpenCV and face_recognition with webcam input.
- Implemented face detection, facial encoding, face matching, and registered-user identification.
- Automated attendance logging with name, date, and timestamp in CSV format.

World Cup 2026 Match Outcome Prediction Model — June 2026 [Github](#)

Python Pandas NumPy Scikit-learn Random Forest XGBoost, Logistic Regression, Poisson Regression · Elo Ratings

- Built an end-to-end ML pipeline using 47,000+ historical matches with data preprocessing and feature engineering.
- Used Elo ratings, team form, and historical performance with Random Forest, XGBoost, Logistic Regression for match outcome prediction and Poisson Regression for goal prediction.
- Achieved ~70% accuracy in group-stage predictions and correctly predicted quarter-final winners during live World Cup 2026 simulations.
- Developed an interactive Streamlit application and FastAPI backend to serve predictions, visualize match outcomes, and expose the trained ML models through REST APIs for real-time simulation

Python Chatbot — September 2024 [Github](#)

Python · NLTK · NLP · Regular Expressions · Pattern Matching

- Developed a rule-based NLP chatbot using Python and NLTK.
- Implemented text preprocessing, pattern matching, and keyword-based intent recognition.
- Generated responses using predefined conversational rules.

EXPERIENCE

Data Science Intern — Luminar Technolab, Kochi

Feb 2026 – Present

- Python for data analysis (Pandas, NumPy, Matplotlib, Seaborn), SQL, Power BI, and ML model building. Deep Learning projects
- Computer vision with Keras, Tensorflow, OpenCV, MediaPipe, face_recognition, and PyTesseract; ML classification and regression algorithms.
- Building projects using Gen AI, Ollama and HuggingFace models, RAG and Agentic AI

Academic Advisor — TechByHeart

Mar 2026 – Jun 2026

Cybersecurity Training Institute, Kochi

- Developed communication, active listening, and consultative problem-solving skills through daily client interactions and enrollment management.

Python & Machine Learning Intern — Camino Infotech

May 2023 (15 days)

- Hands-on exposure to Python fundamentals, data structures, and introductory AI/ML and NLP (NLTK) in an industry setting.

EDUCATION

B.Tech – Computer Science and Engineering

2020 – 2024

Albertian Institute of Science and Technology, Ernakulam, Kerala

CERTIFICATIONS

- [Python for Data Science- Cognitive classes by IBM](#)
- Cloud Application Developer — NSDC Level 5
- [JobReady Program — Wadhvani Foundation](#)
